DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5 and 7-10, drawn to evaporator media cabinet having removable cover, classified in class 55, subclass 490.
 - II. Claims 11 and 13-16, drawn to evaporator media cabinet having downwardly extending flange, classified in class 210, subclass 495.
 - III. Claims 17-20, drawn to evaporator media cabinet extending across an entire width of the housing, classified in class 62, subclass 259.4.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Groups I,II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I,II or III has separate utility such as for filter. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3744

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809. The examiner can normally be reached on Tuesday-Friday from 8:00 to 6:30.
